DETAILED ACTION

1. This Office Action is a response to communications dated 11/30/09. Claims 1-24 are pending in the application.

Allowable Subject Matter

2. Claims 1-24 are allowed.

3. The following is an examiner's statement of reasons for allowance: The response filed on 11/30/09 has placed the instant application in a favorable condition for allowance. Hansson (USP 7,546,086), a newly found reference, is considered the closest reference to the disclosed and claimed invention of determining whether a message containing information of other communication devices has previously been forwarded or seen (see '086, Fig. 2; block 219 and col. 7, lines 19-37). Unfortunately, the instant application has perfected its priority claiming to render the Hansson reference not to qualify as a prior art (see priority dates of Hansson and the instant application). With the above in mind, the prior art of record, considered individually or in combination, appears to fail to fairly show or suggest a claimed invention comprising, among other limitation, a novel idea of determining whether a message containing address information related to other communication devices has previously been forwarded from the communication device, supposedly by analyzing a flag in the message itself, to other communication devices and, if not, sending the message to a second communication, structurally and functionally interconnected with other limitations in a manner as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior/related art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hansson (USP 7,546,086).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frank Duong whose telephone number is 571-272-3164. The examiner can normally be reached on 7:00AM-3:30PM, Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Moe S. Aung can be reached on 571-272-7314. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
